APOLLO TECHNICAL DESCRIPTION

DESKS / CONFERENCE TABLES

Available with wooden desktops with extra-thick thickness of 72mm, made with melamine panels edged with 2mm-thick PVC/ABS edging of matching colour.

Both side legs as well as the front panel are also 72mm-thick in matching or different colour than the desktop. Total configuration is available in a variety of finishes.

FIXED PEDESTAL

Comes as an optional feature. When chosen, it comes as a partial replacement of the side leg and is available with 2 drawers and lock with matching or different colour as the rest of the desk. It rests on rounded aluminum height adjusters.

SIDE EXTENSION

A fixed cabinet type of extension comprising of a set of 2 drawers and a storage cabinet with two sliding doors. The drawers feature an 18mm-thick drawer front and available with a central lock with interchangeable cylinder with 2 keys. A master-key is available upon request at an optional extra. The runners are made of metal with ball bearings, complete with mechanical extraction stops and self-closing mechanism.

An additional cabinet with a hinged door and magnetic latch, can also be found at the front of the unit, for extra storage. Rests at a height of 60cm from the floor and on rounded aluminum height adjusters.

STORAGE UNITS (with sliding doors)

A specialized collection of cabinets with sliding doors is available to accompany the APOLLO. The carcass structure is made of 18mm- and 30mm-thick particleboards faced with wax-finish melamine. They rest on height adjustable metal rectangular legs. They are configured in standard sized compartments each of size 855mmx375mm, available in various setups. Each row of compartments comes with independent sliding doors running on the same aluminum rail, one less than the respective number of compartments in the same row. The sliding doors are available in matching wood and in painted/stained glass with chrome frame.

COFFEE TABLES

The top and the side panel are 36mm thick while the modesty panel is 30mm thick, all in melamine faced chipboards. They are edged with 2 mm-thick PVC/ABS edgebanding material to match the surface. They are available in a variety of colours.

STANDARD STORAGE UNITS

- The carcass structure is made of 18mm-thick particleboards faced with wax-finish melamine, available in the standard melamine colour card.
- Four hard plastic foot height-adjusters are available for each cabinet in order to compensate for possible floor abnormalities.
- The doors are made of 18 mm thick particleboards faced with wax-finish melamine and are available in the standard melamine colour card. They are edged with 2 mm-thick PVC/ABS edgebanding material to match the surface.
- All shelves are adjustable ones at increments of 32mm and carry a thickness of 30mm.
- The glass doors are available with clear, frosted or tinted tempered glass finish and come in 3 versions: the first version comes without a frame. The second version comes with a slim aluminum-look frame in silver or chrome finish while the third one comes with a melamine wood-frame available in the standard melamine colour card to match the carcass panels surface.
- All doors come as standard without a lock but a 2-key lock is available upon request.
- All doors can be optionally available with soft closing hinges.
- All locks come with interchangeable cylinders and master key as an optional extra.
- Door handles are available in black or silver or chrome or transparent finish.

KD FITTINGS

All connections for all the above furniture are carried through a 4-part metal KD fitting. Metal inserts are permanently inserted in the core of the particleboard enabling easier and unlimited easier and unlimited disassembly and re-assembly.
